OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

VOLUME 4

REDCLIFF, ALBERTA, FRIDAY, JANUARY 9, 1914

NUMBER 2

NEW COUNCIL'S FIRST MEETING

A Number of Matters Before
the New Council for
Consideration

COMMITTEES APPOINTED

The New Mayor and Councillors Get Started in a Business-like Manner

Monday night of this week Mayor Bots and the new council met and organized.

The mayor made a real little speech, telling of the aims of the new council, and hoping that the ratepayers would be patient with them for a time. He said that he and the council would expect frank criticism from the ratepayers, but hoped that they would not criticize just for the purpose of embarrassing them. He promised that the interests of each ratepayer would be given due consideration and would be protected in all his rights as such. The first matter taken up after swearing the new councillors in was the choosing of a deputy mayor. Councillor Lavelle nominated Councillor Hicks and was seconded by Councillor Ireland. The other nominees Mr. Hicks was declared elected.

The next order of business was the appointment of the standing committees, and Mayor Bots announced the following appointments:

Finance Committee—Lydiatt, Lavelle and Hicks.
Water—Lavelle, Plath and Ireland.

Fire, Light, Police and Licenses—Ireland, Plath, McLachlan.

Sanitary—Hicks, McLachlan, Englemer Askwith, Dr. E. W. Brown and Fred Courtland.

Public Works—Lavelle, Lydiatt, Hicks, Ireland and McLachlan.

The matter of appointing an official auditor was left over until the next meeting of the council.

A petition was presented and read to the council from the merchants asking that a license fee of \$200 be required on all transient merchandise. This matter was referred to a special committee consisting of Ireland, Lavelle, Hicks, Lydiatt and Plath.

The question of securing a title to the land that the pipe-line laid in from the pumping station to the top of the bluffs, it was suggested by the Brick & Coal Company that the town accept an easement which is just as good as a title, but with a stipulation that the town could not lay more than one line on the property. This matter was referred to the town solicitor.

A petition was received from a number of citizens asking that street lamps be placed on the corner of Broadway and 11th and 12th streets. This was referred to the light committee.

A letter was read from Geo. M. Smith asking what the chances were for establishing a milk route in Redcliff. The secretary-treasurer was instructed to write to him telling him what the license fee is.

Chief Constable Reynolds asked that certain supplies be purchased for the police department. The matter was referred to the police committee.

It was moved, seconded and carried that the council hold two regular meetings a month and that the second and fourth Monday nights in each month be the meeting nights.

Councillors McLachlan and Plath were appointed a committee to provide a paper meeting place for the council.

There being no further business

SPECIAL MEETING LAST NIGHT

On account of circumstances over which the City Fathers had no control, it became necessary for Mayor Bots to call a special meeting of the Council last evening. On account of sickness Councillor Lavelle was absent, as was also Councillor Ireland.

On calling the members to order Mayor Bots stated specifically the object of the meeting, reading a telegram from Dr. Boole, Minister of the Interior, stating that he had arranged for a joint meeting of all parties concerned in connection with the gas rights in dispute, such meeting to take place in Ottawa, on Tuesday 13th inst. The Mayor informed the council that he had just learnt that Messrs. Spencer and Sisson, of Medicine Hat, had already left for Ottawa, but that Mayor Brown wanted him to wait and see if a more suitable date, so far as Medicine Hat's interests were concerned, could be arranged. At this juncture a lengthy conversation over long distance phone took place between the Mayor of the two cities, in which nothing very satisfactory resulted. After a good deal of discussion on the subject the members expressed themselves thus:

Plath: I am not in favor of going to an unreasonable expense, but I am in favor of us getting in and getting some gas franchise for the town.

McLachlan: We certainly want to get in and get the gas franchise at all possible.

Hicks: It appears to me that it is worth the town, if it is worth anything it is worth it, it is up to us to see if we can get our part in securing for the town these gas franchises.

Lydiatt: It appears to me that you Mr. Mayor are the one to go to a close and you had better go.

City Solicitor Clow: It is useless to try further conferences with Medicine Hat. It is only a waste of time.

Bots: If I had my choice I would sooner say here, but the business is of such importance that I think we should take action.

It was then moved and seconded by Councillors Lydiatt and McLachlan that Mayor Bots proceed to Ottawa at once to represent the town at the joint meeting.

Being so ordered Mayor Bots made the statement that he would assure the council that the expense would be not more than half of what it was last time, and he would endeavor to see to it that it was much less than half.

Councillor Lydiatt instructed him not to travel in a manner that would leave the impression that they had no money at Redcliff, as money was only worth what it was equivalent to.

The \$8,000 debentures for Fire Hall and Police Station was brought up for discussion by Secretary-Treasurer Clow. It appears that while ex-Mayor Daniels was in Toronto recently the Council instructed him to sell the above debentures at \$88 and for some reason better known to himself he put them on the market at \$87. On Saturday last the firm of Wood-Gundy sent a wire to ex-Mayor Daniels asking him to confirm the sale of \$87. He interviewed Mayor Bots on receiving the wire but was given to understand that before the sale could be confirmed the Council would have to be consulted. On Monday morning of this week the Mayor called on Mr. Daniels and informed him that a meeting was to be held that evening and wished him to attend, that the matter of selling the bonds at \$87, might be dealt with, but received the reply from Mr. Daniels that he had that

REAL ESTATE TRANSACTIONS

Some Activity Shown in the
Past Week Several
Deals Pending

Several real estate sales were reported the later part of last week and its first part of this week.

The Stoner Agencies report the sale of two lots in block 47 and H. O. Wheeler made the following sales:—Two lots in Shipley Park to Mrs. Frances R. Reeves; six lots in Lockwood, two to Dr. Meelin and Theo. Hanson, two to S. B. Gregg and two to John W. Pallard. W. T. Lockwood also sold two lots in Lockwood subdivision to B. B. Gregg.

The Shipley Investment Co., sold six lots late last week and have several more deals pending.

John L. Landis & Co. has several deals pending and expect to close some of them in the next few days.

More activity is shown in the real estate market in the past few days than has been shown for some time past and is evidence that the money market is easier, and in the next few weeks it is expected that the real estate market will show a large amount of business.

REDCLIFF WINS BOWLING MATCH

The Bowling game between Redcliff and Medicine Hat, played in the Redcliff Alleys last Wednesday resulted as follows: Redcliff, 2,278; Medicine Hat, 2,200. Redcliff winning by 78 points. Those composing the two teams were: Redcliff—Brown, Chester, May, McNeil, Jones and Black. Medicine Hat—Rossiter, McNeill, Dynes, Allen and Theo. May.

The teams have won two games apiece and the fifth one will be played in Medicine Hat next Wednesday night.

A good crowd turned out to witness the game played last Wednesday night and a good deal of interest was taken in the game.

morning, wired the Wood-Gundy people confirming the sale of \$87. City Solicitor Clow assured the Council that Mr. Daniels was from a legal point of view perfectly liable for the \$80,000. Councillors McLachlan and Plath were firm in their stand that he should be held responsible, while Councillors Lydiatt and Hicks thought it would be best to let it go as it might bring unpleasant relations with the firm of Wood-Gundy whom the City was depending upon to sell their bonds. Thus the matter was dropped after Councillor Plath suggested that latter be written to Mr. Daniels informing him that he was no longer the Mayor.

Mayor Bots informed the Council of an interview with Mr. Baldwin in which the latter wanted the town to give him the amount of his bond which was given in the form of security in the recent water works contract. City Engineer Askwith advised the Council to live up to the contract, as it was impossible to tell just how the plumbing of the water works system would stand, also the filling in of the ditches, and as Mr. Baldwin had signed the agreement he should be made to live up to it. The discussion so ended.

After several other items of minor importance were gone over the Council adjourned to meet next Monday evening in regular session.

To Preach Monday Night
Rev. G. Lawson Gordon, of this city will preach in the Third Presbyterian Church in Medicine Hat next Monday night at the induction of the Rev. Mr. Watts.

SCHOOL OPENED LAST MONDAY

Our public school opened last Monday after a two week vacation, with an increased attendance. It is believed that the entire eight rooms will have to be used very shortly, and the school board will have to make arrangements to build another school house to take care of the increased attendance by next fall.

TO MAKE THEIR HOME IN REDCLIFF

Mr. and Mrs. W. J. Ellingwood, formerly of Stratford, Ont., arrived here last Monday and will become owners of Redcliff. Mr. and Mrs. Ellingwood are to have charge of the business offices of the book and shoe factory. They are well pleased with Redcliff and will undoubtedly take a great interest in the town's development, both in a business way and socially.

DR. WALL RETURNS WITH HIS BRIDE

Dr. H. W. Wall returned from the east last Wednesday night with his bride and registered at the Laurel hotel. Not yet being used to travelling in double harness, the doctor failed to register as man and wife, and some of his friends drew the doctor's attention to the fact. The cigars are on the doctor for his carelessness. We have been unable to see the doctor since he returned and for that reason we are unable to say anything about our new citizen. The doctor is a well known and popular figure in the community, and his presence here is a great gain to the town.

MOVING INTO WARE BUILDING

The Home Furnishing Company were busy yesterday and today moving their large furniture stock into the Ware building on Third street just south of Broadway. This store building is one of the finest in Redcliff and will give the company a better opportunity of displaying their stock. The size of the store room is 25 by 100 feet and it has a full basement, with a combined floor space of 5,000 feet.

The Company have taken a three year lease of the first floor and basement and will run a strictly home furnishing establishment.

CIVIC IMPROVEMENT SOCIETY'S MEETING

The meeting of the Women's Civic Improvement Society, held on Jan. 2nd, was most enthusiastic, everyone feeling ready for the New Year's work. As in the general rule in societies of this class, every office was changed, the new ones taking the responsibility of the work being: Pres., Mrs. Symons; Vice, Mrs. Stepler; Sec., Mrs. Askwith; Treas., Miss Falls. The officers of last year did good work and were well satisfied with it as a place of confidence.

At present we will have offices in the Light & Power Company's building.

SHOE FACTORY MACHINERY NOW BEING INSTALLED

Mr. Young Expects to Have
Plant in Operation in
30 Days.

SKILLED MEN COMING.

Will Bring in About Thirty
Families From Eastern
Canada.

The shoe factory machinery has arrived in Redcliff and is now being installed in the building built for the factory in the east end of the town. It will take about 30 days to get everything in place and set up, and by the 15th of February it is expected that the plant will be in operation, and will be turning out a high-class article in boots and shoes. Mr. Young expects to be employing 75 hands shortly after the plant starts and as the business increases to increase the force.

The company has a fine large two-story brick building capable of taking care of over 100 employees, and this building is so constructed that additions can be added to it at any time.

It is expected that a tannery will also be added to the plant in a very short time, and then the company will take the hides for their own use, doing away with the necessity of having to ship in the finished leather.

This is the first shoe factory to be built in Western Canada, and will have the privileges of Alberta, Saskatchewan and British Columbia for a field to dispose of their product.

About 30 houses will shortly be built in the factory district to take care of part of the workmen, especially those coming from the east.

Mr. Young is now busy getting things in shape preparatory to opening up the plant, and as soon as the machinery and power plant is installed, Redcliff's ninth manufacturing plant will be started, and will demonstrate to the people of Canada that Redcliff is forging ahead as the greatest manufacturing town of the West.

To Look After Mr.

Lockwood's Affairs

Mr. E. L. Aultman, formerly of Cincinnati but more recently of St. Paul, where he was connected with the freight department of the Chicago, Milwaukee and St. Paul Railway, arrived in Redcliff last Friday and will look after the business affairs of Mr. W. T. Lockwood. Mrs. Aultman will join her husband here in the spring.

Mr. Lockwood and Mr. Aultman have known each other from boyhood. Mr. Aultman said he was very well pleased with Redcliff, and after he had got acquainted with the people, he believed he would be well satisfied with it as a place of residence.

At present he will have offices in the Light & Power Company's building.

Change in the Office Force

Miss Gwynne Timmons, who came to Redcliff from the States a little over a month ago, is now employed by the Brick & Coal Company as stenographer. Miss Robertson, who has held this position, becomes bookkeeper, and Mr. Maher becomes accountant.

Wanted
If you have a house to rent let it go. Have several people who want to eat houses. A. J. Nicholson, Broadway.

Rev. Lewin Visiting His Brother

Stops off at Redcliff on
His Return to
Australia

Rev. Frederick Lewin, of Victoria, Australia, arrived in Redcliff last Monday from England, and is now on his return trip to the Island Empire of the Pacific. Rev. Mr. Lewin is a brother of the steward of the Redcliff club, which explains his visit here. In speaking to the Review, respectively the other day he said that this was his first visit to Canada and that he was very much impressed with what he had seen.

He had witnessed the opening of the Quebec and Manitoba railways on his trip across the country and was very well pleased with the way business was carried on.

Speaking of Redcliff he said that it was very remarkable to see a town built on so substantial a base in so short a time. He was also delighted with our climate, no snow and the sun shining, with the thermometer standing 55 above zero on Jan. 2nd. Mr. Lewin said that it was hard to get people to go to Australia while there were such opportunities offered them in Canada but he thought that as this country settled up, Australia would receive her share. He said the homestead laws of Canada were the great inducement, as the Australian government sold the land instead of opening it up to settlers.

Mr. Lewin sails for Australia from Vancouver Jan. 21st. He will conduct the Church of England services here next Sunday in Maple Hall.

Vinns-Gordon

Mr. Ralph Odo Gordon, of Medicine Hat, and Miss Milda Vinns, of Spokane, Wash., were united in marriage at the manse last night by the Rev. O. Lawson Gordon. The young couple will make their home in Medicine Hat.

United States Buys

Canadian Bonds
Investors of the United States purchased over \$200,000,000 of Canadian municipal securities last week. This is 78.40 per cent. of the total municipal issues of Canada in 1913.

Mr. Meng in Town.

Mr. H. Meng, of Meng & Scott, Spokane, Ont., arrived in town recently. Mr. Meng is the owner of considerable property here. He was here last summer but returned to his home in the east last August. He said he could see quite an improvement in Redcliff in the last six months.

Rolling Mills Again Running.

The Rolling Mills and Bolt Works commenced operations again last Monday after being closed through the holidays season. The company is now employing about 75 men and expect to keep the plant running steadily through-out the year.

Insurance Speedily Settled

The damages sustained by the fire that occurred in the Crow building has been very speedily and satisfactorily settled and recompense made to all parties concerned. The Stouffer Agency who handled the insurance.

Left Redcliff for England

Mr. George Christoff left town Saturday evening for England. It is not known by his most intimate friends what this sudden departure means, but he was evidently in a hurry to "Get There." Some of his "Pals" who claim to know believe he will return shortly with Mrs. Christoff.

THE REDCLIFF REVIEW

HATCHER & HUBB, Publishers.
Subscription \$1.50 Per Year
Advertising Rates on Application
FRIDAY, JANUARY 9, 1914

The subscribers of the Review are growing every week. If you are taking it send it to your friends they might soon get interested in our progressive town. Be a booster.

The whole business portion of Didsbury, built of frame buildings, was entirely wiped out. If more of the western towns would use the Redcliff made brick and build of brick or Redcliff deck, fire would have little chance to get in its deadly work.

START-OUT RIGHT.

At the first meeting of the new council Monday evening, the business of the year was taken up in a practical manner by appointing standing committees and referring all legislation of any importance to the committee under whatever head it might come. By so doing the public business will be conducted as should be in a practical business manner. Had the old council started out along this line they would have saved themselves a lot of trouble in the early part of their term of office.

Mr. Lydiatt's appointment as chairman of the finance committee is a wise selection, as he undoubtedly has the greatest experience in financial matters. Mr. Lavell's appointment as chairman of the water committee was also a wise one, as he has given good service on this committee in the past year and is a man of wide practical experience.

The public works committee is also a good one and we believe will be heard from in the future.

INTERNATIONAL PEACE.

At the 17th annual dinner of the Canadian Society of New York City over three hundred Canadians attended. Hon. W. T. White, the Canadian Minister of Finance, represented the Canadian Government, while William J. Bryan, Secretary of State, represented the Wilson administration. The speech, making more strongly on the lasting friendly relations between England and the United States. The American representative delivered an eloquent plea for international peace. He said: "While there is the most friendly relationship between Great Britain and United States we intend to keep it so. We are determined that there will be no war between the English speaking races and any other country." Hon. W. T. White, the Canadian Government representative, said: "What can be more beneficial to these two neighboring countries than another one hundred years of continued peace? The friendship between Canada and United States is becoming more steadfast as we become better acquainted. Why should it be so?" he continued. He spoke of the love and loyalty unshakable and unchangeable of Canada for the Empire of which the symbol was the throne and the crown.

The Review is an advocate of international peace and these friendly gatherings go to make peace more lasting between the two greatest nations in the world. We have just had one hundred years of continued peace. Why can we not have another thousand years of peace? Let us live on the imaginary border as neighborly brothers. Anything that is of beneficial interest to Canada is of benefit to the United States, and anything that interests United States interests Canada.

We are one people, only living under different governments. Recently eminent Frenchmen and Germans in order to bring about better relations between their two countries proposed a lay to publish newspapers for printing "war news", without some foundation in facts. We read the sensational papers of Europe that are printed to enrich the pockets of those that benefit therefrom at the public expense—where their own paid by blood of husband, fathers and sons not to be valued in dollars and cents. These European gentlemen have proven, for instance, that the Kewpops of Germany have paid newspapers to start war panics in order to sell the different governments their latest styles and inventions of modern guns and war material. The average journalist is a man of ambition, wisdom, and an advocate for progress, and a worker of the public interests. There are exceptional craftsmen in every line of profession that are of no benefit to the public welfare. We have them in the journalistic profession. When we see a flaming article in the papers of some rumored battle, murder or sudden death, and find the story to be a string of malicious fabrications, we then realize that there has been another craftsman that is using the printer's ink and should not be connected with the printing of literature to be given to the public.

If the newspapers of the British Empire and America would give less space to war rumors and more to the advocates of international peace, wars and rumors of wars, would soon be a thing of the past.

INVESTORS BUYING BONDS AGAIN

There are indications that the great investment companies have been turning their backs again to some extent to bonds and debentures, says The Monetary Times Annual.

There are several reasons why this was to be expected. In the first place, the companies referred to have been putting a great deal of money into the one form of investment—mortgages. The experts who guide the destinies of these concerns do not consider it advisable to let any one form of investment—however excellent it may be—absorb too large a proportion of the total funds. In other words, it is considered advisable to preserve a balance or due proportion among the several forms of investments. As mortgages have tended to grow unduly large, the balance might be restored through switching back to bonds for a time. Next, the British investors who have been taking the municipal and other bonds have lately been backward about putting more money into them. They have taken a vast quantity of Canadian and other securities of various kinds.

Financial Conditions Looking Brighter

The year just ended was full of incident, at times there was doubt as to the outcome, but now I can see little reason for not viewing the future cheerfully, says Sir Edmund Walker. During a period of growth so rapid that most of us desired at least to see the pace lessened, we were often warned of dire things due and coming to us when the purse strings of the world suddenly tightened. We have come through such a period safely, and when the effects of the enforced contraction have been measured, I think we shall find that the experience has been worth the cost, at least to the country as a whole. A great check has been placed on speculation in real estate without any general financial distress, and without any perceptible effect whatever upon the land mortgage and other companies who do the lending of the country, adds Sir Edmund.

ESSAY ON THE TOWN OF REDCLIFF

By Carol McKonkey, a Pupil of Redcliff Public School.

Below is given an essay written by one of the girls in grade eight, of our public school. This essay won the highest percentage of marks given by the principal of the school.

Redcliff is situated in Southern Alberta. It is on the main line of the C. P. R. It is six miles from where the C. P. R. crosses the Saskatchewan river or six miles from Medicine Hat. It is on a part of one of the Sir Lester Kay ranches known as Stair. It is on the north bank of the South Saskatchewan river on a high level piece of ground with good drainage and a beautiful view of the surrounding country and adjacent towns.

Redcliff has approximately three thousand people. The school census gave twenty-seven hundred people. The townsite and subdivisions cover six and three quarter sections. The original townsite or all that is incorporated covers four sections, being two miles long and two miles wide. But with subdivisions it is four miles long and three miles wide.

Redcliff's history is very interesting. The land on which it is built was sold by the Canadian Land and Ranch Company, October 1905, to J. F. Bending. In June, 1908 the Broyer Land Company took over Mr. Bending's agreement and completed it. In 1907 the town of Redcliff was laid out and the Redcliff brick plant and coal mine started. Only a few people resided here and it did not take much growth for five years. Then in 1912 it began to boom and substantial buildings of native brick were built; factories came one by one and to-day we can boast of being the "Smokeless Pittsburgh of Canada."

The town was built in the present location for several reasons. First because of the natural resources. Second because of its situation. Redcliff's name is very interesting in itself. There is a place in the river bank where shale is burnt forming a natural wall the color of brick. The story goes that at some time there has been a fire of either coal or gas, limited by some passing prairie fire, thus making one of the freaks of nature in the beautiful red cliff from which our town appropriately gets its name.

The buildings of Redcliff are mostly of native brick (red) being very substantial for a new town.

There are many up-to-date business buildings in Redcliff. There are two fine large brick hotels. An eight roomed school house; with all the latest equipments, which would be a credit to any new town. There are several beautiful blocks in town, such as the Wheeler Block, Post Office Block, Howard Building, Broadway Department Store and many others, and several others under construction. There are many up-to-date residences, of both frame and brick. Special mention might be made of some very beautiful bungalows. As heat is of no consideration, with the abundance of natural gas, these make ideal homes.

The water system of Redcliff is very complete. The water is very pure as it has a natural filter. It is river water. There is a pumping house at the river which pumps the water into the water tank. A well is dug a little ways from the river in the sand and the water has to seep in through the sand thus forming a natural filter. The water is then pumped into the water tanks. One is situated in the lower end of the town, the other on the hill. The one on the hill is made of steel and is a fine landmark as it can be seen for a very long way.

Redcliff has also many natural resources. There is gas in abundance. All that is needed is to drill into the ground. Then the coal which could be used instead of gas. Then silica sand for glass making

and shale for making brick and other potteries.

There are many industries here, several of which are mentioned below. The coal mine where many tons of coal are dug daily. It employs about forty men and has a monthly payroll of four thousand dollars. There are three other products from which carloads of bricks are shipped daily. It is the best brick in the west and so has all the western provinces for its market.

The glass factory is an immense affair which has recently begun to work employs about one hundred men at present and will soon employ more. The Ornamental Iron Works employs one hundred and thirty men. The Motor Truck Works has turned out among other things, the bus which runs regular between Redcliff and Medicine Hat.

There are three lumber yards. The best and shrewdest is under construction. The furniture factory will soon be located here.

Among the prospective industries are Alma Steel Works, which is to start after Christmas, the Hammond Stocker and the Monarch Plate Glass factory, which is to start near the glass factory already here, and is to start building this coming year.

Redcliff has for amusements two picture shows and the skating rink; which is not open yet but soon will be, also a men's club.

The people of Redcliff are mostly of English, Canadian and American birth. There are few foreigners. The people show the typical western social spirit.

Even an unopinionate person can see in the not far distant future, Redcliff, whose whistles call to their daily employment, streams of what are termed the working people. The best population on earth from which a live, thriving town can be built.

THE MORMONS IN SOUTHERN ALBERTA

By Rev. Wm. Shearer.
Joseph F. Smith, of Salt Lake City, Utah, President of the Church of Jesus Christ of Latter Day Saints (Mormons), is at present on a visit to Alberta. His visit is in connection with the erection of the \$250,000 temple which his church is building at Cardston. He speaks of Alberta as "this paradise," and predicts that Cardston will be a better and larger city than Salt Lake City. He advises Canadian Mormons to build "so strong that it will last until the second coming of Christ."

It is said the Mormon Church has already purchased 122,700 acres of land west of Cardston. And now Joseph F. Smith has his covetous eyes on that magnificent tract of land, covering 500 square miles, and known as the "Blood Indian Reserve."

He is reported as having said, "This land here we will pay for. When the Indians are ready to sell we will pay for it. We won't be long after any money they ask for it. The land is worth it."

All land which is bought and sold in trust by Joseph F. Smith for the Mormon Church is sold to its members at the original purchase price. The purchaser then pays ten per cent of his net profits periodically. It is this system of titling, which is carried on everywhere, that has made the Mormon Church the wealthiest institution on the continent of America, and enables them to carry on their proselytizing so persistently.

When the Mormons first established themselves in Alberta a letter to the Montreal Star said: "Let the Government nip the evil in the bud. No other people can live with them in peace, as has been fully demonstrated in Missouri, Illinois, and Utah."

The Government will have enough to do after a while to attend to the saints if they are allowed to settle in Canada. That prediction is coming true.

Presbyterian Record.

Canada and the Panama Canal

That Canada has a vital interest in the successful completion of the Panama Canal is a patent fact to all who know anything of her agricultural and industrial development and resources. Any country whose foreign trade closely approximates the sum of \$1,000,000,000 in one year, as did that of Canada in 1912, must be concerned in the new adjustment of the channels of international trade such as must result from the opening of the canal, writes the Director of the

Pan American Union in The Money Times' Annual. More especially must this be true of a country whose extent and geographical location is such that this new route will open a gateway for the shipping of its two coasts, 3,000 miles or more apart.

To eastern Canada the whole west coast of two continents will be made accessible, and a shorter route to Australia and Japan is provided. To western Canada the Atlantic coast of the Americas and Europe will be brought closer by 3,000 miles in distance and from 30 to 40 days in time for freight steamers. That this means much to the Canada of to-day goes without saying. How much more it will mean to the Canada of the future may only be guessed at.

Report on Agricultural Credits

The report of the Alberta members of the American Commission on Agricultural Credits is in course of preparation. Dr. H. M. Tory, president of the University of Alberta, who has just returned from the final meeting of the Commission at Washington, where some forty members from Canada and the United States met, states that all the evidence and material for the report is now in his hands and the preparation of the report will be proceeded with at once.

Brick Go Through Fire Before they Go to You.

They are made from clay and the clay is burned in a heat that averages 2300 degrees Fahrenheit—a heat far greater than any fire they will ever be called upon to pass through in the walls of your house.

This is what makes Brick Fire-proof.

That is what makes Brick Frost-proof.

That is what makes Brick IT'S ECONOMY

Build Your Home of Brick—IT'S ECONOMY
True economy not only takes in the first cost but the cost that is to come. Brick houses of average construction cost but a few dollars more than lumber or stucco—say \$150 on a \$4,500 house. But when they are erected steel shops. There are no repairs to be figured out. There is no painting to be counted in every 3 or 4 years. There is no depreciation in price, consequently your house will sell for what it cost you, plus the increase of the value of your lot in the meanwhile. There is a reduction in the insurance rate of 37 per cent over concrete or stucco and more than 40 per cent over lumber. There is a reduction in fuel bills because brick keeps out the frost in winter. There is comfort in summer because brick keeps out the heat. And save all you can borrow more money from your bank on a brick house ten years after it is constructed than you can on a lumber or concrete of the same value in the same period of time. When you build, build for true economy.

BREVITIES

Mr. A. E. Swanson and family returned to Redcliff last Monday night, after spending the holidays in Calgary.

Mr. George W. Brown returned to this city Tuesday after spending the holidays in Chicago.

Born on Jan. 1st, 1914, to Mr. and Mrs. David E. Schloesser, a girl. Both mother and baby are doing well.

Close in residence lots on water and gas—\$25 down—\$25 per month. Address owner, Box 248, Redcliff.

Quarry Lodge, No. 2, A. F. & A. M., will hold a special communication next Monday night in Crown's Hall. Work in the first degree.

Mr. A. S. Seville, clerk at the Redcliff Hotel, who spent the holidays with his son near Calgary, returned last Friday night.

Joe Orr, one genial assistant town engineer, returned to Redcliff Wednesday, after spending the holidays in the west. Joe failed to bring back that young lady with him. What's the matter, old boy?

F. L. O'Fallon, wife and son, of Vancouver, arrived in Redcliff Sunday and will take up their residence here. Mr. O'Fallon is a son of Mrs. M. Lynch and will be in the employ of Mr. and Mrs. Lynch at the City Meat Market.

The Rev. T. W. Canfield of Sudbury spent last Sunday in Redcliff taking in the Anglican church services in the morning in the room at the public school, which has been so kindly lent for the purpose, and in the evening in Maple Hall. The services were exceptionally bright and well attended, some special Christmas music having been arranged.

Church of England

Services will be held next Sunday at 7 p. m. in Maple Hall and will be conducted by the Rev. Fredrick Lewin, of Australia.

Baptist Church

Morning worship, 11 o'clock. Subject:—"The Kingdom Come." This is the second sermon of the series on the "Lord's Prayer."

Children's sermon—"The Children." Sunday school—12 o'clock. Both of these services will be held in Crown's Hall. In the evening there will be a union service of the churches in the Empress Theatre. The Rev. Mr. Gordon will preach at this service. His subject will be "Our Saviour." The union prayer services which have been held each evening this week have been well attended and have already been productive of much good.

Presbyterian Church

Services at eleven o'clock on Sabbath forenoon in the church, on Second street. Rev. Mr. Gordon will preach on "The Better Covenant." The evening service in the Empress Theatre will be a union meeting, at 7:30 p. m. Sabbath School at 9 o'clock and the Union Bible Class at 3:30. The choir meets on Thursday at 8 p. m. Prizes and prayer service on Wednesday at 8 p. m.

New Store Completed

Mr. John Nicholson, harness maker, is about to move into his new store on Fifth street south of Broadway. The building is a good one, and when business demands it, he will put on another story. He is now preparing for spring trade, having engaged a man who will devote his whole time to making heavy harness.

Dubou New Owns Skating Rink

Dubou Bros., who have shouldered the greater part of the responsibility of furnishing the public of Redcliff with a skating rink this winter, formed the Revue this week that they are now the owners outright, and will endeavor, weather permitting, to give the public a place of amusement that will be fully up to date in every particular, and solicit a continuance of their patronage.

Travelling Libraries.

So strong is the demand for the travelling libraries being sent out by the department of extension of the University of Alberta that the supply originally provided is completely exhausted. As many as six applications for libraries have been received by one mail. Steps are being taken to increase the number of libraries available immediately, so that all applications may be favorably dealt with.

Week of United Prayer

The union meetings for prayer in the Presbyterian church this week are being well attended and manifest a good spirit of Christian brotherhood. Their tendency has been to raise the spiritual tone of those who have attended them.

To-night (Friday) the subject of discussion is "The Holy Life." To-morrow evening a number of laymen are to speak.

Sabbath evening the service is in the Empress Theatre at 7:30 o'clock. Rev. G. L. Gordon to preach on "Our Sulliciency."

Men's Christian League

Last evening the Men's Christian League held their annual election of officers. The following are the officers:—Dr. H. W. Wall, president; A. J. Nicholson, vice-president; C. E. Doomer, secretary; S. E. Gust, treasurer; Rev. R. W. Hinkle, religious director; and W. P. Higgins, musical director. These officers were elected for the coming year with the understanding that they would terminate should the League be re-organized as a Y. M. C. A. No definite steps have been taken as yet to have this organization arranged but there is a good chance that Redcliff will have a real Y. M. C. A. within the year if the people will only give it their backing.

This coming Sunday O. D. Austin, of the Medicine Hat News, will speak to the men on "The Mutual Obligation of the Public and Press." Mr. Holben will sing.

SALE

NOTICE IS HEREBY GIVEN that there will be exposed to sale by Public Auction, certain goods and chattels in premises situate in Third Street, Redcliff, and occupied by A. W. Broughton as Tenant to me, Louis Kalowitz, and sold by me by the said A. W. Broughton to me. The sale will take place on Wednesday the 14th inst., at 2 o'clock in the afternoon, at said premises on Third Street, B. inst.
